

**Product Code . JLI-BLE-10696**

## **Classification of Living Things Lab Investigation**

### **Description**

---

Classification of Living Things. A fun way to learn about biodiversity. Students view illustrations of various life forms and use a simple, dichotomous key to determine the appropriate kingdom and phylum of each.

Introduce your students to the Five Kingdoms through the process of classification. In the process, they'll gather valuable summary information regarding what each life form "does for a living!"

Class size: 40 students.
