

Educational Lab Equipments

Description

The kit includes a study guide to help you learn more about microscopic life, plus instructions and materials to make your own slides and study bacteria and protists. Contains petri dishes, sterile nutrient agar, protozoa mix, microscope slides, stains, and more.

Explore the microscopic world with your compound microscope (not included)! With this kit you can grow and examine bacteria, investigate tiny pond protozoa, and get an up-close look at some of the cells in your own body.

The study guide includes a short history of the microscope, mini bio of Louis Pasteur, diagram of a cell, and more.
