

Educational Lab Equipments

Description

Use this expansive Crystal Growing Experiment Kit to grow seven crystals in different sizes and colors.

Growing beautiful solid crystals from liquid solutions is a great way to get your kids thinking about chemistry.

The 4M Crystal Growing Experimental Kit includes instructions and all the materials needed. Ages 10 and up.
Some adult supervision needed.

Watch as the dissolved particles join and solidify in an ordered way to form crystals up to 1" in size.
