

Educational Lab Equipments

Description

The elephant toothpaste experiment is very popular and fun to watch. This kit produces huge amounts of foam; it should be conducted by an adult and likely used as a visual demonstration for others to watch and enjoy. Use this Elephant Toothpaste Science Kit to produce a large foamy explosion when you add detergent and potassium iodide to hydrogen peroxide.

This Elephant Toothpaste Science Kit Includes:

30 ml green dish detergent

10 g potassium iodide crystals

90 ml 30% hydrogen peroxide

Instructions

Educational Lab Equipments,
#449, HSIIDC, Industrial Area, Saha,
Haryana
